3 Description

To improve the resilience of the supply chain, u-blox has qualified a new PCB supplier for the ZED-F9 modules listed above. The new PCB may have a slightly different color, but the performance of the affected modules remains unchanged.

4 Schedule

First production parts are estimated to be available in 2023 calendar week 22. The estimated first shipment schedule is the forecasted date when a customer may expect to receive the products with new PCB supplier. This is determined by the estimated date of inventory depletion on the Information Note issue date. The estimated first shipment date may be affected by fluctuations in supply and demand.

5 Customer impact and recommended action

There is no impact for the customers. The new PCB supplier has been fully qualified according to the specification.
