

## Product Advisory # 9234

October 7, 2004

This is a formal notification that a product supplied by VersaLogic Corporation is being discontinued. Our records indicate that you have purchased this product.

Please read this notice thoroughly to determine what impact, if any, this change may have on you in regards to your currently owned product or future purchases from VersaLogic.

### **Affected Products**

Product	Change	Recommended Replacement
CFA-1c	Discontinued	CFA-1e

### **Customer Impact Summary**

#### **Fielded Units**

No impact.

#### **Future Shipments**

CFA-1c is available for purchase only in limited quantities.

### **Overview**

The CFA-1c (CompactFlash Adapter) has reached the end of its production cycle. It has been replaced with a newer version, the CFA-1e.

### **Changes Made to Product**

As of October 7, 2004, the CFA-1c is available for purchase only in limited quantities. VersaLogic will accept last-time-buy purchase orders for the CFA-1c with an NCNR (non-cancelable, non-returnable) agreement. The last date for placing an order is January 15, 2005. Delivery must be taken by March 30, 2005. The product will not be available after existing supplies are exhausted.

### **Customer Impact**

There is no impact to existing products. This notice affects future orders for this part number.

### **Product Migration**

The CFA-1e is the recommended migration path for CFA-1c users. It is a drop-in replacement product. Both the "c" and the "e" models operate from 5 Volt power. However, the newer CFA-1e supplies 3.3 volts to the CompactFlash Module. This provides additional compatibility with newer CompactFlash modules. Cabling, mounting hardware and physical size are all identical to the CFA-1c.

### **Additional Information**

VersaLogic is eager to facilitate your purchases and make your transition to alternative products as smooth as possible. For additional information or assistance related to this discontinuance, please contact VersaLogic's Sales staff at [Sales@VersaLogic.com](mailto:Sales@VersaLogic.com) or (541) 485-8575.
