Multilayer Ceramic Capacitors / Notice of Discontinuation (10pF and smaller cap value with decimal point)

To our valuable customers,

TDK would like to inform you of Product Discontinuations for some Multilayer Ceramic Capacitors.

Thanks to capacitance increases, much smaller sized and higher rated voltage products are currently recommended on TDK's Website.

As a result, market demand for legacy products has declined and the manufacturing efficiency was decreasing.

Therefore, TDK decided to discontinue production of the affected items to focus on productivity improvements for future increases in MLCC demand.

We apologize for any inconveniences caused by this discontinuation, but we do hope for your kind understanding and your cooperation.

Sincerely yours,

1. Production status revised to End of Life (EOL) : 10pF and smaller cap value with decimal point (**Please refer to attached part list**)

2. Schedule : Final order date : January 31, 2025

Final deliver date : March 31, 2025

For your assistance in future, our sales department in charge will consult.

TDK would appreciate if you could fill out the receipt and return it by May 31, 2023.

It will be assumed that this notification is accepted if we do not receive it back by above date.
