

February 2022
To Our Valued Customers:

NOTICE: 3M™ Scotch-Weld™ Structural Adhesives Discontinuations & Replacements

This letter is to inform you of a number of discontinuations and replacements for the 3M Structural Adhesives portfolio. To ensure supply continuity and due to limited demand 3M will be discontinuing the manufacturing of certain sizes and types 3M™ Scotch-Weld™ Structural Adhesives effective immediately. After the final manufacturing run for each product, we will continue to ship the product until inventory is depleted or until supplies last. We will not be accepting returns of any of the discontinued products (unless the return is due to a quality issue or concern).

Most products have a suggested replacement for testing and evaluation. The list below includes the products, product sizes, stock numbers being discontinued as well as the recommended replacements. We are sending this notice out in advance to allow customers ample time to qualify, test and move to suggested 3M alternative adhesive options. We strongly encourage you to contact your local 3M Adhesives Sales Professional or Adhesives Application Engineer for any assistance that is required to move to a recommended replacement product. We are willing and ready to assist with any support needed during this transition.

Please note 3M is exiting the Industrial Adhesives and Tapes Gasket Maker and Retaining Compound portfolios as they do not align to the strategic direction of the portfolio; our focus remains on providing innovative Structural Adhesives solutions. There are no suggested replacements for those products.

If you have any questions relating to this letter or questions at all about recommended replacements and alternatives, please contact your 3M Adhesives Sales Professional or Customer Service at **1-866-599-4227**. Thank you for your continued support of 3M™ Scotch-Weld™ Structural Adhesives.

Regards,

A handwritten signature in blue ink that reads "BWhite".
