Data Sheet Change:

☐ Yes ☒ No

Attachment:

☐ Yes ☒ No

Description and purpose of change:

To meet current customer demands, Würth Elektronik will release a 2nd glue and another production line to ensure the supply chain for the series WE-LQSA.

There will be no change in form, fit, function, quality or reliability of the product.

Detail of Change:

To ensure a constant availability of the product, Würth Elektronik releases another glue and another production line. All electrical and mechanical properties of the parts will remain the same.

Reliability / Qualification Summary:

Product approval is according to the specification criteria and is internally released by the Product Management Department.

The following items are part of the internal release process:

- Resistant to soldering heat (MIL-STD202-210 J-STD-020)
- Temperature Cycling (JEDEC22 method JA-104)
- High Temperature Exposure (MIL-STD-202-108)
- Biased Humidity (MIL-STD202-103)
