402E

Electronic SUPER DUSTER™

402E is an eco-friendly, cordless rechargeable alternative to conventional canned compressed air dusters. Unlike dusters using canned air, the air force remains consistent and its surface does not get cold during extended use. This e-duster has 2 speed modes to balance performance and battery life. 402E is ideal for use around the home and office for cleaning dust, lint and debris on keyboards, audio visual and lab equipment. Perfect for repair and maintenance technicians and service providers.

Eco-friendly and cost-effective

Fast recharge

Digital display (Hi-Low, battery %)

40 000 rpm (High speed mode)

5 h of use (Low), 40 min of use (Hi)
