Reason: Increased raw sheet size

Description: The raw sheet size for TG-A2200 has increased from 300x150mm to 540x270mm. As a result, the 300x150mm and 150x150mm sheets are no longer efficient sizes to manufacture, as they generate a lot of waste and will therefore be made obsolete. The recommended replacement is now a 270x270mm part (1/2 of the raw sheet) for the old 150x150mm part, or the larger raw sheet part measuring 540x270mm to replace the 300x150mm part.

Should you require more details or wish to discuss this please do not hesitate to contact us at sales@tglobaltechnology.com.

Start date: Last Buy 30th September 2023
