

Product Change Notice July 5, 2023

Products Affected: Knight Electronics and Orion-branded Power Cord Products

Type of Change: Change of Product Branding

Reason for Change: Affiliation with Io Audio Technologies as a brand of connectivity products.

Discussion: Io Audio Technologies has expanded their product offering into the power sector. Knight Electronics, Inc. has manufactured and sold power cord products for many years as both OEM products and under the Orion Fans brand. With Io Audio Technologies' most recent product expansion, the power cord offerings previously sold under the Orion Fans brand will now be offered under the Io Audio Technologies brand moving forward. Part numbers will not be affected, and there will be no changes to product specifications. The Power Cord products will be featured on the ioaudiotech.com web site and product literature will be available at that location.
