Description of Change:

In 2023, MaxLinear will be converting all shipping labels for the parts noted from an EXAR format to MaxLinear's label. During this transition customers may receive either label.

This change affects only shipping and packing labels. This change will not affect the part number, part marking, manufacturing process or manufacturing sites.

Only work in progress material will be converted. Existing inventory from MaxLinear's warehouse, channel sales, distributor, and such, will not be converted. Hence, customers may experience receiving mixed shipments with both Exar and MaxLinear labels for some period until existing inventory of old labels is eventually cleared out. Situation is product to product with no predictable way to determine when all old labels will be exhausted.

No change to product form, fit, function and reliability.

ADDENDUM A: Fixed MBB label logo for DX204001 to MaxLinear logo.

ADDENDUM B:

Replaced 'All other affected products outer box label' with clearer pictures.

Corrected Date Issued (from original PCN) issue date +90 days to August 30, 2023.

Purpose of Change:

Standardize MaxLinear shipping labels.
