## End of Life Notice

**Dear Excelitas Customer,**

As a response to constantly evolving technology landscape, global competition, and customer requirements, last week Excelitas announced its plans to consolidate our Salem, MA. Analytical (pulsed-xenon) operations into our existing facilities in Batam (Indonesia).

As part of this effort, we have discontinued the low volume products listed below. These products are immediately end-of-life.

Due to limited production capacity and material availability, Excelitas will not be able to accept any further orders.

Please contact your Salesperson, Distributor or Customer Service person if you have any further questions.

Excelitas part number / Description	
190-87925 / 0190-87925	211-12180 / FX-1218
