

Product Change Notification

TE Connectivity

Product Change Notification: P-23-025118

PCN Date: 13-SEP-23

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

GROMMET SEAL MTC POWER BLOCK

Description of Changes

TE Connectivity's supplier is currently undergoing an operational change involving the relocation of its manufacturing facility responsible for producing the raw material compound used in molding grommets for MTC inserts. This relocation involves moving the entire production process to a new facility, which will continue to be operated and managed by the same supplier. Despite this change of location, the supplier is committed to maintaining the consistent quality and components of the silicone rubber compound used in the production of grommets. To this end, they will continue to use the same combination of raw materials. In addition, it will continue to use the same tooling equipment and manufacturing processes that have been established for this product.

Reason for Changes:

The supplier's facility in Valencia, California became space constrained, and the grommet manufacturing operations has been relocated to the Broken Arrow plant. There will be no alteration in the form, fit or function of MTC connector products because of this relocation. The design of the rubber components and insert assemblies will remain unchanged, and there will be no modifications to the final component part numbers.

Estimated Dates:

Last Order Date (Obsolete Parts Only):

First Date To Ship (Changed Parts Only):

13-OCT-2023

Last Ship Date (Obsolete Parts Only):

Last Date for Mixed Shipments: (Changed Parts Only):

No Mixed Shipments
