

Product Discontinuation for Analog Signal Conditioning Products

Dear Sir or Madam,

The items mentioned below are no longer in production and will not be accessible moving forward. We kindly request that you share this information regarding the discontinued product(s) with your employees and possibly to your customers. This decision to discontinue these products is part of our ongoing dedication to enhancing our product offerings for your benefit.

Initial situation

- Discontinuation of product due to optimization measures.

Schedule / Availability

Availability of products in discontinuation:

- While remaining supplies last

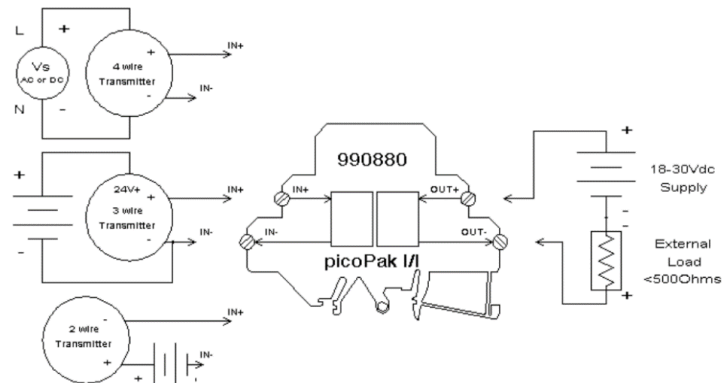

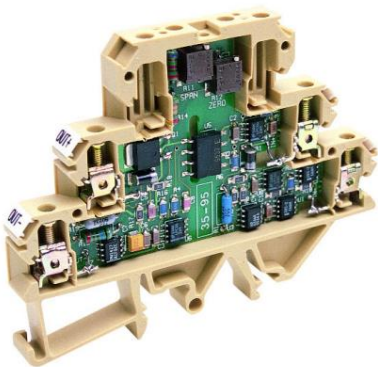

Availability of successor product:

- The successor product is released for sale and stock is expected to be available by mid to late September 2023.

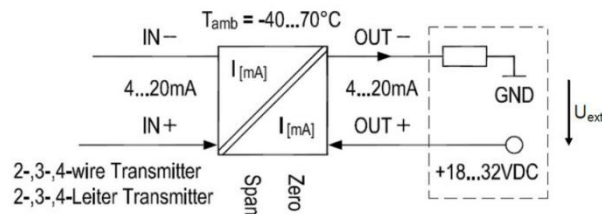

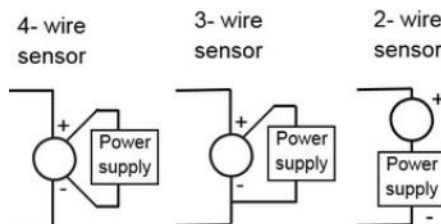

List of affected articles

Product(s) to be discontinued		Suggested successor product(s)	
Article number	Article name	Article number	Article name
7940126737*	PicoPak I-I 4-20mA Isolator	2517450000	PICOPAK-CI-CO-LP-S
*Formerly referred to as 9908800000			

Predecessor Product

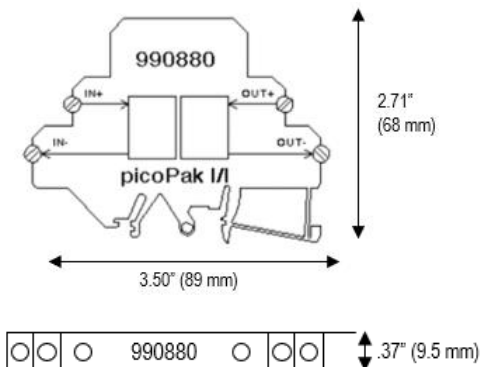

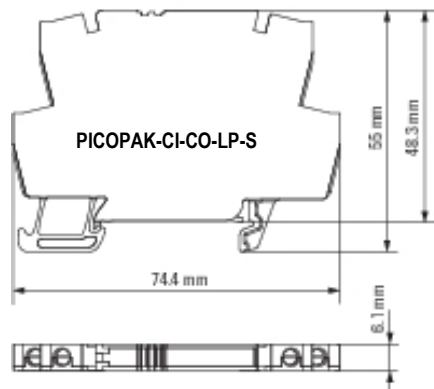

Successor Product

Things to consider in terms of successor product vs. discontinued product(s)

- Due to its compact low-profile design, the PICOPAK-CI-CO-LP-S is 33.4mm closer to the DIN rail, 2mm thinner, and 0.9mm taller than its discontinued counterpart, offering space-saving benefits, especially where space is at a premium.

- The operating temperature has been improved to -40°C thru 70°C from 0°C thru 50°C, providing a broader range of possibilities for industrial automation applications.
- Successor product carries certifications for cULus, Class 1 Division 2, cURus, ATEX, and IEC EX, ensuring compliance and safety even in harsh environments. The predecessor carries certifications for CSA, CE, and Class 1 Division 2.

This Product Discontinuation Notification is provided to inform our customers about a product end of life. We apologize in case of any inconvenience caused.
