

## Product End of Life Cycle (EOL) Notice

**Discontinuation Notice on selected LED Products – see table below for details**

This letter is to inform you that Samsung Electronics plans to execute an End of Life cycle (EOL) process for below mentioned products.

After a thorough review of our existing product offering, we have made the determination to discontinue these products in order to provide you with more advanced products while more efficiently managing our product portfolio.

We sincerely appreciate your use of these terminated products, and we ask your understanding on any inconvenience caused by termination. We hope that this notification allows you time to complete existing projects using your current designs and shift future designs to one of our other advanced solutions. Please note that, if the EOL timeline is earlier than the expiration of the warranty period, we reserve the right to service this warranty with adequate replacement parts.

Please contact your Samsung Electronics representative with any questions or concerns regarding this matter and for further support on a product transition to alternative devices.
