

Product Change Notice

Issue Date: 12-Jun-2023

Change Description:Add ASE-M as a 2nd source Final Test site**Parts Affected:**BCM89810A2AMLG
BCM89810A2AMLGT**Description and Extent of Change:**

Electrical Final Testing (FT) is currently performed on this product at UTAC (Singapore). Broadcom will add ASE-M (Malaysia) as a 2nd source for FT. There is no change to the Foundry or Assembly locations or processes for this PCN – see updated flow below.

**Reasons for Change:**

Increase final test capacity and flexibility

Effect of Change on Fit, Form, Function, Quality, or Reliability:

The device specification, test limits, SYA/SBL limits, and S-PAT will remain the same, which will ensure product electrical performance remains the same. Appropriate correlation was performed to ensure no impact on Fit, Form, Function, Quality, or Reliability.

Effective Date of Change:

Product shipments using this change will begin after **1-Aug-2023**. Timing of shipment of parts tested at ASE-M will vary by part number depending on customer demand and inventory levels.

Correlation Information:

The UTAC-to-ASE correlation has been completed. See the table below for details.
