## TE Connectivity

**Product Change Notification:** P-23-025180

**PCN Date:** 28-SEP-23

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

### General Product Description:

Various constructions using 22 AWG, 19 strands, Tin Coated Copper Conductor in Coaxial and Twinaxial constructions

### Description of Changes

TE has validated and qualified an additional conductor vendor for the 19 strand, 22AWG tin coated copper conductor used in controlled impedance cables. The conductor continues to be purchased in accordance with the dimensional, electrical, and physical requirements of the existing purchase specification for this material. This improves supply chain considerations.
