Product Change Notification

PCN-IFC-8971-2023

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
IFC - Industrial Field Connectivity	BF7	Product Change Notification	Notify Distributors and Field	10/4/2023

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

In an effort to ensure our modular inserts are used appropriately, we are updating the electrical characteristic printing on the 12pos modular crimp contact inserts to reflect Pollution Degree 3 instead of Pollution Degree 2. Pollution Degree 3 accounts for air pollution that could be conductive while Pollution Degree 2 is for only non-conductive pollution. As a result, the voltage limits identified on the insert reflect the worst-case scenario for Pollution Degree 3 (250V) instead of Pollution Degree 2 (320V). Both voltage ratings are still valid, but deciding which voltage is applicable will depend on the environmental conditions.

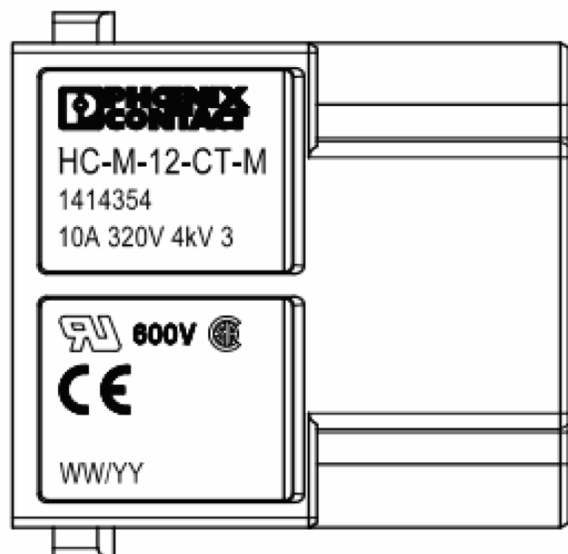

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes

Transaction Dates

Date modification goes into effect from Germany:	11/27/2023
Expected first shipment (from Phoenix Contact) of the modified products(s):	11/27/2023
