Announcement of HUBER+SUHNER RF products - Terminations

Dear Valued Customers,

We would like to take this opportunity to inform you that we are modifying our existing termination portfolio. This change allows us to consolidate our portfolio for low, medium and precision termination, in total 25 products. At the same time enabling to extend the product range and offer a better support. The lead-time will be reduced from 16-18 weeks up to 8 weeks. Please check attached excel file where you find the products concerned. We are replacing the article numbers listed under the "old article no." column with new article number. For some terminations the existing product description will be replaced to new product description.

Terminations Phase
out list Nov2023.xls>

The switch to the new products will be done automatically **after the consumption of the existing stock.**

In order to minimise any inconvenience, we ask you to review your current demand and amend your future orders.

Thank you very much for your cooperation.

Sincerely,

Catalin Prahase
Product Manager, IND RF Cable Connectivity
