Description and purpose of change: To meet current customer demands, Würth Elektronik releases a 2nd Source Material supplier of the component. All products with date code 2024-01-01 or later, will be affected by this change. There will be no change in form, fit, function, quality or reliability of the product.		
Detail of Change: To ensure the constant availability of the product, an additional source for core material has been released for the series WE-TPC size 8020. The electrical and mechanical parameters in the datasheet are not affected.		
Reliability / Qualification Summary: Product approval is according to the specification criteria and is internally released by the Product Management Department. The following items are part of the internal release process: - Operational Life (according MIL-STD-202 Method 108) - Physical Dimension (according JESD22 Method JB-100) - Mechanical Shock (according MIL-STD-202 Method 213) - Vibration (according MIL-STD-202 Method 204) - Resistance to Soldering Heat (according MIL-STD-202 Method 210) - Electrical Parameters (according as specified in the Datasheet)
