

Date: 01.02.2023**Subject:** Product End of Life Announcement

In response to the global component shortage, commitment to our clients, and the continuity of our product, a number of our products are now entering the final phase of the Teltonika Networks product life cycle.

Today marks the official announcement of the product End of Life (EOL) of **RUT240**, **RUT950**, and **RUT955**. There is still enough time for you to make orders for these products, and plenty more time to receive support for them. We will be accepting orders for these devices until **31.07.2023** and will continue to manufacture them until **31.12.2023**. All new software improvements, updates, and system features released up until **30.06.2024** will be available for these devices without any notable exceptions. Lastly, we will continue to provide critical security and bug fixes, as well as other forms of support, until **31.12.2025**.

Replacing these products are alternatives that maintain the same level of functionality and reliability:

| EOL Product | Replacement(s) |
|-------------|-----------------|
| RUT240 | RUT241; RUT200 |
| RUT950 | RUT951; RUT901* |
| RUT955 | RUT956 |

**Will be launched this quarter*

For more information on this product EOL, or any inquiries you may have, we encourage you to contact your sales manager or our support team. They will be more than happy to guide you forward.
