

## Product change notification (PCN)

<b>Title / short description</b>	Change of packing unit
<b>Affected article category</b>	Connector
<b>Change category</b>	Packaging
<b>Change number</b>	PAB220033-00
<b>Reason for PCN/PDN Revision</b>	

### Purpose/objective of the change

Change of packing unit

### Detailed description of the change

Item 1079531 (Sunclix-MC4 adapter) consists of one cable assembly with a positive SUNCLIX connector and one with a negative SUNCLIX connector (as shown in the product photo). Currently, five of these pairs are packaged as one packing unit. This is sometimes misleading for customers and results in incorrect orders and customers' expectations with respect to quantity not being met. We have therefore decided to define one pair (positive and negative) as a packing unit. This makes it clearer that an order of five pieces means a delivery of five pairs.

### Identifying characteristics

A packing unit is a cable assembly with positive and a negative SUNCLIX connector, as shown on the product photo.
