

Product change notification (PCN)

Title / short description	Change of ink ribbon for all MM-WMTB HF... cable markers for the THERMOMARK GO
Affected article category	Marking and labeling
Change category	Material
Change number	CBG230028-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

The ink ribbon previously used for printing on the MM-WMTB HF... has been discontinued by the manufacturer and is no longer available.

Detailed description of the change

In the future, a new ink ribbon will be used for the MM-WMTB HF... cable markers in question. The ink ribbon has to be changed because the old ink ribbon has been discontinued by the manufacturer, and is no longer available. Handling of the material cartridges in interaction with the THERMOMARK GO does not change as a result of this. The printing quality also remains the same with the new ink ribbon. The outdoor resistance and the chemical and mechanical resistance of the printing remain unchanged. However, the resistance to oils and fuels will change: with the new ink ribbon, printing is no longer resistant to fuel rated "super". As a result, the classification of the resistance level is also changing from "high" to "medium" in the MARKING system app.

Identifying characteristics

Production batch V/C on the packaging label

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2024-01-01	End of Service (EOSR)	-
End of Sales (EOS)	-
