

End of Life Notification

Date: Sept 28th , 2020

Dear valued customer:

Thank you very much for your nice favors on Delta fan products all the time.

This letter is to inform you that Delta has begun the end of life process for the following fan model : ASB0305/ ASB0312 –C series because a) they are old versions with low volume demand and strenuous support from some electrical material suppliers; b) it is too hard to maintain/build new tooling to support firm orders. The replacement model name is ASB0305/ ASB0312 –D series with almost identical performance. Please refer to Appendix for more details.

Please kindly accept our deepest apology herein once it may cause any convenience with you. Below are some key reminders for your kindly understanding.

In case you may need more information, please don't hesitate to contact with our local account presentative or directly come to us for check by phone call or E-mail.

Sincerely yours,

Melissa Wang
