Product change notification (PCN)

Title / short description	Programming adapter update
Affected article category	Measurement and control technology
Change category	Form and appearance
Change number	CCK220170-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Upgrade of the programming adapter for further device variants

Detailed description of the change

The IFS-USB-PROG-ADAPTER programming adapter (2811271) is extended, allowing it to be used with several device types from Phoenix Contact.
The main connecting cable to the signal conditioner and measuring transducer is replaced by a micro USB cable, allowing parameterization of the MINI Analog Pro and MINI Analog device series as well as most MACX Analog device series. In addition, 2 attachment adapters are supplied, which are required for parameterization of the MACX Analog AP (Additional Portfolio) device series and other MACX Analog device series. The additional attachment adapters extend product compatibility of the programming adapter. The new revision of the programming adapter is a full replacement of the existing revision.

Identifying characteristics

See appendices

Start of Production (SOP)	-	**Last Time Delivery (LTD)**	-
Effective date (EOP)	2024-02-29	**End of Service (EOSR)**	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

☐ Software / Firmware Bugfix   ☐ Short-term delivery stop by supplier   ☐ Short-term recall by supplier

☐ Force majeure   ☐ Product improvement with customer benefits

☐ Others
