LPT15P12 and LPT15P23 Series Models

October 2023

**Table 1. Change Identification**

Product Family / Commercial Product	All LPT15P12 and LPT15P23 Series Models
Type of change	Discontinue single voltage models and replace with global voltage model
Reason for change	Product consolidation
Description of change	Discontinue LPT15P12 and LPT15P23 models and transition to LPT15P99 models with global input voltage which will operate with same form, fit and function of the 115V and 230V models
Product Line(s) and/or Part Numbers	All Mechatronics models that begin with LPT15P12 or LPT15P23
Marking to identify changed product	By product part number
Manufacturing location(s)	Taiwan Plant

**Table 2. Change Implementation Schedule**

Forecasted implementation date for change	October 2023
Forecasted availability date of samples for customer	ASAP
Estimated date of changed product first shipment	November 2023
