

Product Change Notification

TE Connectivity

Product Change Notification: PCN-24-198485

PCN Date: 26-JAN-24

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

Clarification about Non-MIL Spec parts availability

General Description of Changes

Dear customer, Unfortunately, some previous PCN s recently issued (PCN-23-183956, PCN-23-186195, PCN-23-188177, PCN-23-189230) have caused some confusion for our customers. This PCN has been issued with the intention of providing greater clarity regarding these PCN s. Due to extended lead times for products that require ongoing maintenance with Navair, (the governing body for Mil Spec), TE has decided to introduce Non Mil spec equivalent part numbers. Going forward, the Non Mil Spec parts can be used to serve the customers who do not require Mil Spec when the Mil Spec products are on hold due to ongoing product maintenance. Most of the current Mil Spec products are still comply with Mil Spec, they can continue to be sold and used as normal when Mil spec is required or not required. Attached list of Performance Material heat shrink tubing products (Please check attachments) that have released Mil Spec approval. All of these product families have equivalent Non Mil Spec part numbers proactively created for future needs when the Mil Spec products are on hold due to ongoing product maintenance. The new Mil Spec release for the above product families (Check attachments) will be updated and communicated as soon as we receive Navair approval. Please watch for our PCN in the future. Please also see attached the cross reference spread sheet for the part numbers (See Attachment) and descriptions. Both Mil Spec and Non Mil Spec versions will be available on TE.com.

PCN Ref Number:

Dear customer

Unfortunately, some previous PCN's recently issued (PCN-23-183956, PCN-23-186195, PCN-23-188177, PCN-23-189230) have caused some confusion for our customers. This PCN has been issued with the intention of providing greater clarity regarding these PCN's.

Due to extended lead times for products that require ongoing maintenance with Navair, (the governing body for Mil Spec), TE has decided to introduce 'Non Mil' spec equivalent part numbers. Going forward, the Non Mil Spec parts can be used to serve the customers who do not require Mil Spec when the Mil Spec products are on hold due to ongoing product maintenance.

Most of the current Mil Spec products are still comply with Mil Spec, they can continue to be sold and used as normal when Mil spec is required or not required.

Below is a list of Performance Material heat shrink tubing products that **have released Mil Spec** approval. All of these product families have equivalent Non Mil Spec part numbers proactively created for future needs when the Mil Spec products are on hold due to ongoing product maintenance.

Product Family	Mil Spec status	Non Mil spec part numbers	Available to sell
RNF-150	Released	CS-34568 suffix at the end of the existing product Description.	Both Mil Spec and Non Mil Spec parts.
RP-4800	Released	CS-34568 suffix at the end of the existing product Description.	Both Mil Spec and Non Mil Spec parts.
RT-375	Released	CS-34568 suffix at the end of the existing product Description.	Both Mil Spec and Non Mil Spec parts.
Versafit	Released	CS-34568 suffix at the end of the existing product Description.	Both Mil Spec and Non Mil Spec parts.
RNF-100 (USA version)	Released, except -GN green color	European version products	Both Mil Spec and Non Mil Spec parts.
RW-175	Released	European version products	Both Mil Spec and Non Mil Spec parts.
ATUM	Released	European version products	Both Mil Spec and Non Mil Spec parts.

** TFE/TFER is no longer released with a Mil Spec approval.*

There are a few product families that are under maintenance at Navair. Unfortunately, we don't have an estimated timeline from Navair yet. Until this is resolved, we are unable to supply the current Mil Spec part numbers for these product families. However, for those customers who do not require Mil Spec, we are happy to serve with the Non Mil Spec parts as an equivalent solution.

PCN Ref Number:

Product Family	Mil Spec status	Non Mil spec part numbers	Available to sell
RNF-100 (USA version) -GN green color	Inactive, on maintenance with Navair	European version products	Non Mil Spec parts.
TAT-125	Inactive, on maintenance with Navair	CS-34568 suffix at the end of the existing product Description.	Non Mil Spec parts.
SCL	Inactive, on maintenance with Navair	CS-34568 suffix at the end of the existing product Description.	Non Mil Spec parts.
SST	Inactive, on maintenance with Navair	CS-34568 suffix at the end of the existing product Description.	Non Mil Spec parts.

Please Note: These products currently on the shelf with customers comply with Mil Spec, they can continue to be sold and used as normal.

The new Mil Spec release for the above product families will be updated and communicated as soon as we receive Navair approval. Please watch for our PCN in the future.

Please also see attached the cross reference spread sheet for the part numbers and descriptions. Both Mil Spec and Non Mil Spec versions will be available on TE.com.

regards

Performance Materials Product Management
