09 89 030 2011	09 89 030 2038	09 89 050 2004	09 89 050 2001
2. Reason for Termination			
<p>After a thorough review and evaluation, we have decided to discontinue our press-in business. This decision is based on a strategic realignment of our company and a focus on other business areas that are more in line with our long-term vision and strengths. We would like to thank our customers and partners for their trust and cooperation. We remain committed to providing high quality products and services and are confident that our future initiatives will be successful.</p>			
3. Possible Replacement Products			
<p>The CPM machines were the flagship when it came to precisely measuring displacement and force and automatically evaluating and displaying them. Unfortunately, all existing press-in machines and tools are not capable of this. Our hand lever solution (up to 15kN) article no. 09 99 000 0201 and the pneumatic press (40kN), article no. 09 99 000 0282, fall into this range and continue to offer them.</p>			

In case of questions or concerns, please do not hesitate to contact our technical support.
