

Product change notification (PCN)

Title / short description	MINI Analog Pro, adjustment to printing
Affected article category	Measurement and control technology
Change category	Form and appearance
Change number	CCK230007-01
Reason for PCN/PDN Revision	The effective date of the change has been adjusted.

Purpose/objective of the change

"Digital nameplate", adjustment to printing

Detailed description of the change

The device printing is changed so that the "digital nameplate" is applied to the product in the form of a QR code. Product-specific information such as HW and FW revisions can be retrieved via the digital nameplate. For products with configuration options, the updated IFS-USB-PROG-ADAPTER – 2811271 is added to the documentation. Expired EAC (Ex) approvals are removed. The previous "Analog Conf" Windows parameterization software is discontinued. With clipx ENGINEER, a successor solution is offered, which models all previous functions of the "Analog Conf" software:

CLIPX ENGINEER DEVICE PARAMETERIZATION – 1371665 / Windows installation version with online update.

CLIPX ENGINEER DEVICE PARAMETERIZATION P – 1371666 / Directly usable Windows version without online update.

CLIPX ENGINEER – 1272241 / Engineering software as web version

The MINI MCR-2-UNI-UI-2UI-(PT)(-C) / MINI MCR-2-TC-UI-(PT)(-C) / MINI MCR-2-RTD-UI-(PT)(-C) items will feature additional error signaling ("NE43-compliant") when the change comes into force.

Identifying characteristics

Adjustment to printing

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2024-11-11	End of Service (EOSR)	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- | | | |
|---|---|--|
| ☐ Software / Firmware Bugfix | ☐ Short-term delivery stop by supplier | ☐ Short-term recall by supplier |
| ☐ Force majeure | ☐ Product improvement with customer benefits | |
| ☐ Others | | |
