ASTRO directly integrates with leading space management software. Choose custom provisioning to receive your ASTRO with pre-installed software, enabling a plug-and-play experience.

ASTRO with Indoor Finders

Indoor Finders with ASTRO offers a holistic solution for modern office management, combining efficient space utilization, intuitive wayfinding, and aesthetically pleasing custom themes through the PowerBx service.

Indoor Finders

- 

Hybrid Workplace: Desk Reservation
Ensure social distancing and manage office space effectively.
- 

People Finder: The Corporate Mobile Directory
Visualize employee contact information, organizational hierarchy, and seating locations on a map.
- 

Indoor Mapping: Indoor Positioning & Navigation
Enable real-time indoor positioning and navigation.
- 

Conference Room Booking
Filter rooms based on meeting preferences and amenities.
- 

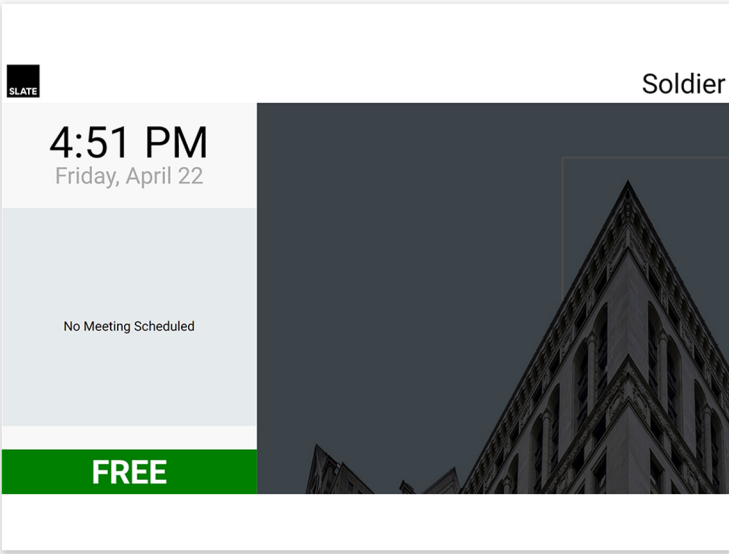

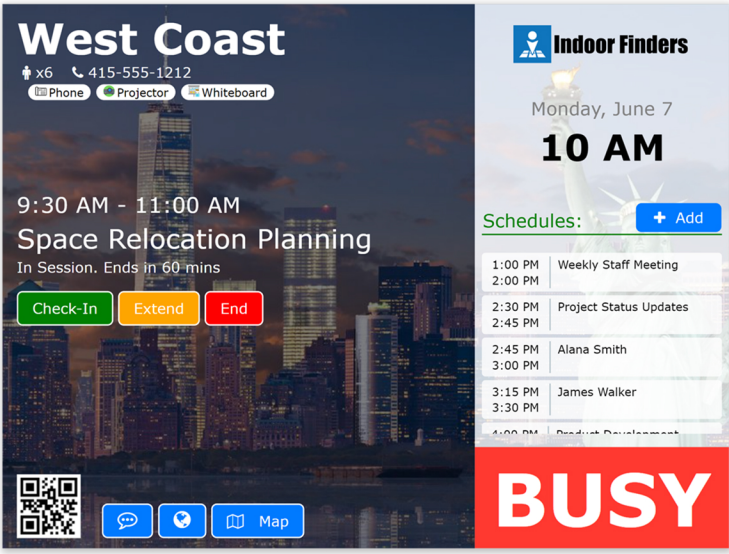

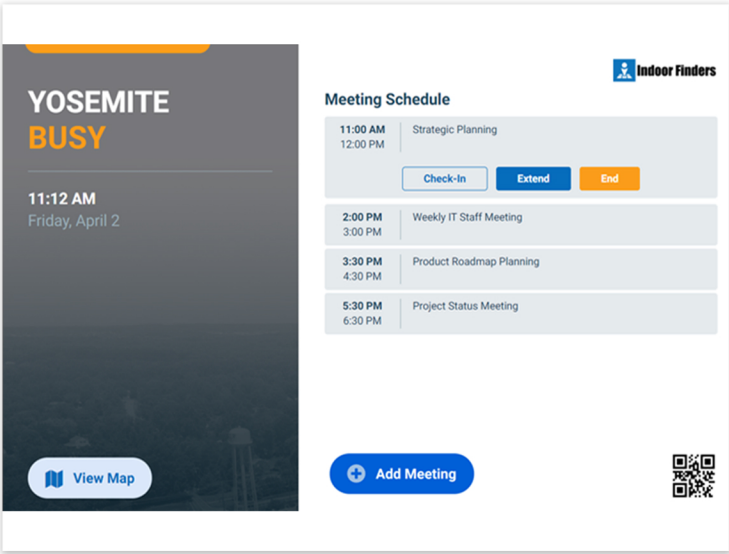

Conference Room Display Panel
Maximize room utilization with check-in enforcement and early meeting-ending capabilities.
- 

Seating Space Management
Manage various types of spaces with real-time occupancy statistics.
- 

Move Planning: Scenario Planning
Visualize move/block planning scenarios and delegate seating blocks efficiently.

Custom Themes

Indoor Finders provides users with the capability to create personalized themes, which can be implemented either across the entire company or on a room-specific basis.

Native Support for Enterprise Systems

Flexible Workspace Solutions

Effortlessly schedule and book conference rooms to avoid scheduling conflicts.

Display Features

The incorporation of aesthetic design and a **10.1" HD IPS display** guarantees optimal viewing angles, elevating your scheduling experience.

Option for an **LED Status indicator** to visually indicate room availability and schedule information at a glance.

Easy Power Management

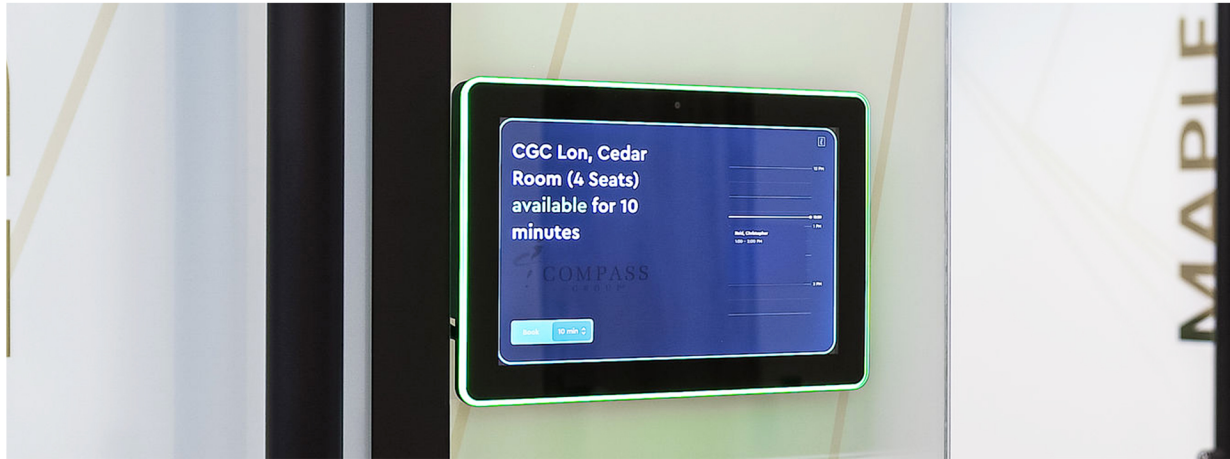

Energy efficient, convenient, and supports single-wire high-speed PoE or PoE+ RJ45 network connections.

ASTRO features integrated Power over Ethernet + Data so you can plug in your CAT6 cable and go. No additional power cables or PoE adapters are needed.

Enterprise-Grade Security

Ensuring constant protection for your data and scheduling information through enterprise-grade security measures.

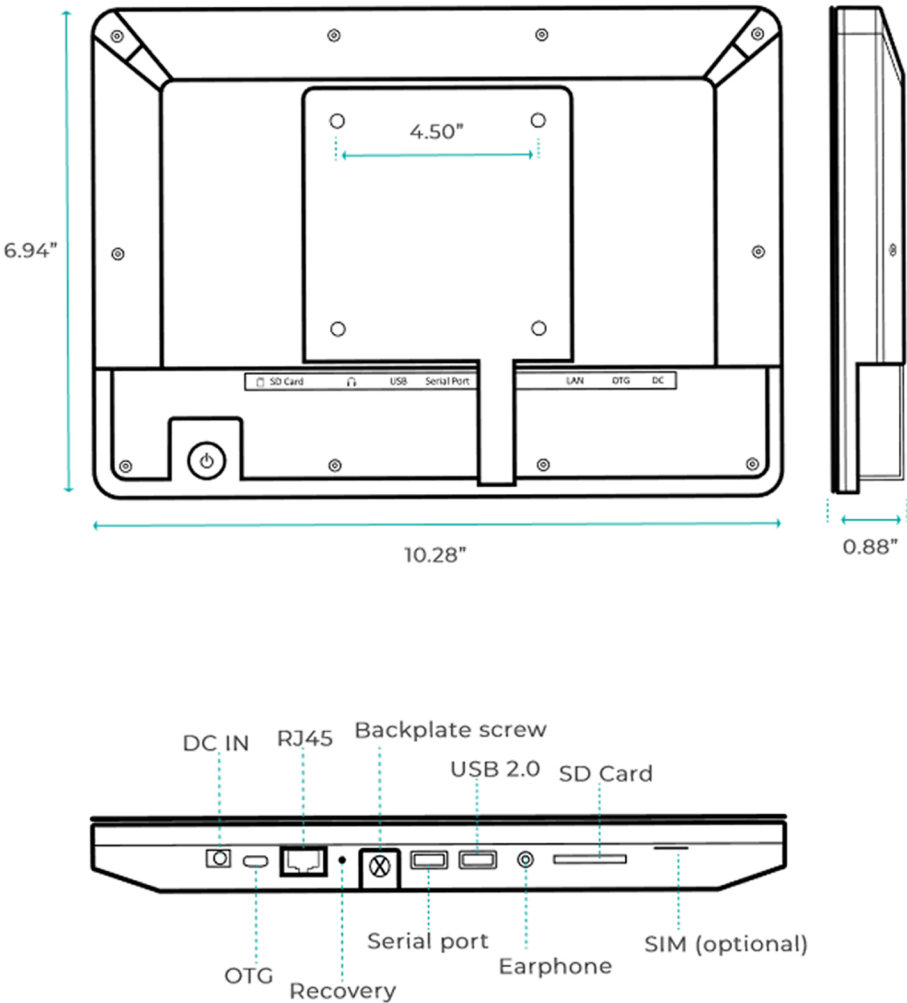

Glass, Door, and Wall Compatible

Easy installation with different mounting options for any workspace layout.

Different ASTRO Products

Easy installation with different mounting options for any workspace layout.

ASTRO All-in-One

Streamlines conference room scheduling and workplace management.

ASTRO All-in-One (Door)

Designed to mount your ASTRO All-in-One securely for efficient conference room scheduling.

ASTRO All-in-One (Table Stand)

Versatile and suitable for lobbies, conference rooms, and trade shows, it unlocks the potential of flexible work.

ASTRO All-in-One (Floor Stand)

Ideal for scheduling, branding, and showcasing any space management software, offering style and functionality.

Service Overview

Deployment & Provisioning

The Deployment and Provisioning services include global installation services offered in the US, Canada, and select international markets.

The comprehensive support encompasses site surveys, network configurations, Cat6 cable drop, kiosk assembly, operating tests, and ongoing support.

Additionally, custom provisioning ensures that devices are configured to customer specifications before shipping.

Onboarding & Integration

PowerBx is experienced at integrating Office 365 (EWS) and Google Workspace calendar systems with third-party software.

Allow us to work side by side with your Client Success team to ensure a white glove end-user experience.

Business Continuity

Upgrade your lobby check-in experience with a kiosk that's uniquely yours. We can provide custom color coating and logo placement on any kiosk you select.

Texture wraps, such as wood grain, are also available. Our in-house team will work to create a beautiful finished product for your workspace.
