

Product change notification (PCN)

Title / short description	Changes to the cable duct portfolio
Affected article category	Installation and mounting material
Change category	Form and appearance
Change number	CBE230123-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Cable ducts portfolio optimization.

Detailed description of the change

The cable ducts portfolio and its supply chain are strategically optimized in terms of design, packaging, resilience and sustainability. The redesign of the side punching and its predetermined breaking point allows removing the side punching manually in a more controlled manner. The outer dimensions, the color and the technical properties of the cable ducts remain unchanged. Thus, mixing the old and the new versions is possible. However, the covers of the old and new designs are not interchangeable.

The existing approvals are extended by DNV GL for the halogen free product line, which enables their use in shipbuilding applications.

Packaging quantities are partially adjusted to reduce the packaging variance. Furthermore, the switch to a neutral, non-printed packaging will reduce the product environmental footprint.

See the attachment for further details.

Identifying characteristics

All modified items can be identified by the incremented production batch.

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2024-05-31	End of Service (EOSR)	-
End of Sales (EOS)	2024-05-31		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- | | | |
|---|---|--|
| ☐ Software / Firmware Bugfix | ☐ Short-term delivery stop by supplier | ☐ Short-term recall by supplier |
| ☐ Force majeure | ☐ Product improvement with customer benefits | |
| ☒ Others | | |

Improved supply capability
