Summary

EOL notice for the WP7610 module and the WP7610 MiniCard Accessory Board

Details of Change

Semtech/Sierra Wireless hereby announces the EOL of the WP7610 module and the WP7610 MiniCard Accessory Board from the 4G LTE product portfolio.

Customers wishing to extend the life of a platform that has integrated one of the affected modules have two options:

1. Purchase sufficient quantity of the WP7610 module or WP7610 MiniCard Accessory Board before the last purchase date to support the projected life of the platform.
2. Integrate a new module for any new design. The following modules are suggested for product migrations:
 - a. WP7611 or RC7611 for replacing RC7610
 - b. MC7411 for replacing WP7610 MiniCard Accessory Board

Due to component lead times and availability, customers are encouraged to communicate their intentions for a LTB to Semtech in advance of the LTB date. Note that the LTB quantity may be limited.

Effective Dates

LTB (Last Time Buy) date is September 30, 2024. Purchase orders will only be accepted until this date.

LTS (Last Time Ship) date is March 31, 2025. All shipments must be completed on or before this date.

Product Support and Maintenance

ACTIVE SOFTWARE MAINTENANCE PHASE:	COMPLETED Respective Software packages had been released and published on Sierra Wireless Source page (https://source.sierrawireless.com).
CRITICAL SOFTWARE MAINTENANCE PHASE:	FROM 29-MAR-2024 TO 31-MAR-2026 During this phase, new device software will be issued if a Critical software issue is discovered. A software issue is deemed to be Critical if it causes the Semtech/Sierra Wireless product or service to become systematically unavailable or unresponsive, and there is no available resolution or workaround. No new device software will be released after the end of the Critical Software Maintenance Phase.
END OF STANDARD PRODUCT WARRANTY:	31-MAR-2026 End of standard product warranty period for devices shipped on the Last Time Ship date.
