<b>Replacement</b>	2G PA: OnMicro OM9901-11 IC: Champhill QX8612GD
<b>Classification</b>	<input type="checkbox"/> Design Change <input type="checkbox"/> Manufacturing process/ method <input type="checkbox"/> Manufacturing condition <input type="checkbox"/> Manufacturing location <input checked="" type="checkbox"/> Material <input type="checkbox"/> Others
<b>Effective Date</b>	15 <sup>th</sup> Jan, 2024

### Reason/s for Change

In order to ensure the stable supply of SIM7000X serial module, SIMCom has to change the 2G PA and IC currently used to new ones for SIM7000E & SIM7000G and change IC only for SIM7000JC. The discontinued one and the replaced one are both listed in above table. SIMCom declares that this change will not affect module function and performance, and will not affect customer applications either. We add new part number to this module:

Module name	Original P/N	New P/N
SIM7000G	S2-107Y8	S2-108NM
SIM7000E	S2-107Y3	S2-108NN
SIM7000JC	S2-107Y5	S2-10CRR

Please note: Purchase orders of Original P/N will be accepted until 2024/2/29.

Thanks for choosing SIMCom products!
