Product Change Notification: P-24-026088

PCN Date: 23-APR-24

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

1-PORT MATENET FRAME,UTP

Description of Changes

This Product Change Notification (PCN) is to inform about a capacity enhancement tool for PNs listed below (according VDA Trigger matrix No. 13) with the change of manufacturing location - TE Tangier (acc. VDA Trigger matrix No. 29). The change has no impact to form-fit-function. TE Change process follows a strict procedure, which fully maintains quality and ability to supply. Internal release process is ensured by TE, including product validation as per OEM/CAM requirements. Validation will be initiated and completed according to project plan, as soon as samples are available. PPAP will be prepared (as per agreements between the two parties, including the negotiated TE trigger matrix), a request via ePPAP (via www.te.com or request to TE Sales representative) needs to be initiated by Customer 4 weeks prior to implementation date. In case no request is obtained till above mentioned date, PPAP will be considered as approved, and the change is considered as fully released.

Reason for Changes:

Product improvement.As a result of a thorough analysis of demand picture matching our customer needs we are going to optimize production capacity for affected PN/s.
