

## Product change notification (PCN)

<b>Title / short description</b>	Reapproval of QUINT power supply
<b>Affected article category</b>	Power supplies and UPS
<b>Change category</b>	Documentation
<b>Change number</b>	CCM220110-00
<b>Reason for PCN/PDN Revision</b>	

### Purpose/objective of the change

Maintain supply capability

### Detailed description of the change

The product listed below has been successfully used worldwide for over 15 years. Even in these difficult times when we are dealing with a shortage of components, our priority is to ensure a reliable supply and to be able to guarantee this for the coming years. For this reason, we are making this product "Fit for the Future" and will have it reapproved in accordance with currently valid and future-proof standards. In this context, we simultaneously qualified further component manufacturers to be able to act independently and more flexibly in the event of future component bottlenecks.

Due to the replacement of UL/CSA/EN 60950-1, this standard will be omitted from the new revision 09 of the product. Customers who still require verification in accordance with 60950-1 can also use a CB scheme in accordance with IEC 60950-1 for revision 09.

For more advanced requirements, the following evaluations, for example, are available for revision 09:

IEC 61010-2-201  
IEC 62368-1  
EN 61558-2-16,  
UL508/UL61010  
UL121201,  
CSA 61010-2-201

### Identifying characteristics

Device revision on the side label and outer packaging

<b>Start of Production (SOP)</b>	-	<b>Last Time Delivery (LTD)</b>	-
<b>Effective date (EOP)</b>	2024-12-01	<b>End of Service (EOSR)</b>	-
<b>End of Sales (EOS)</b>	-		

### Short-term change (< 6 months) or discontinuation (< 12 months), due to:
