TE Connectivity

Product Change Notification No: P-24-025976

PCN Date: Thu Mar 28 12:28:40 EDT 2024

PCN Classification: Not Applicable

PCN Type: Standard

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

TE Intercontec products - New dash numbers

Description of Changes:

Herby TE would like to inform you about an upcoming change in the SAP dash numbering of some INTERCONTEC parts. 755 PNs will receive new TEPN with dash variant -P00 instead of original -000. Details can be found in this PCN document and in the additional customer info letter as well as in attached customized cross reference files. You may have received a PCN about this change already under PCN-Number P-24-025827. This old PCN contained some misleading info and is hereby replaced by this new PCN.

Reason for Changes:

Part status change. Based on dedicated requirements of SAP, we have to introduce for a limited set of parts new dash-numbers only for the TE part number formats. Therefore, we are introducing new dash numbers with -P00 ending for those PNs. This change is not impacting fit, form or function of any of the given PNs in this PCN. This PCN has, however, only informative character and does not require any approval or further steps from your side, besides the update of your ERP system in case it is carrying the TEPN format. If you are ordering with your customer part number or the old INTERCONTEC catalogue part number there is NO change required, in case you already use the SAP format, please use the updated dash numbers (-P00) for future orders. If you have any queries, please do not hesitate to contact your designated contact at TE within 14 calendar days after receipt of this PCN. Originator / Contacts: Kurt Robert Hippler (kurt.hippler@te.com)
