## Product Discontinuation Relay modules from series 288

Dear Sir or Madam,

WAGO products are subject to a long life cycle. New variants/types and articles are continuously being developed, completing and optimising the existing product range.

However, the life cycle of each product is not endless. The elementary relay used in the following articles have been discontinued by the manufacturer and we herewith would like to inform that the items will be discontinued in the foreseeable future: 288-xxx

### Concerned product(s)/variant(s):

Art.No	Description	Last call	Last delivery	Alternatives
288-364	Relay module DC 24V, 1NO	30.06.2025	30.10.2025	859-304 788-304
288-368	Relay module DC 24V, 1NC	30.06.2025	30.10.2025	859-304 788-304
288-564	Relay module AC/DC 24V, 1NO	30.06.2025	30.10.2025	859-354

### Last-Call-Date

Please refer to the table for the last call dates. The last call date is the last order date on which you can order the items. Due to the discontinuation of the elementary relays and the existing stock, we can only produce a limited quantity; orders exceeding this cannot be processed, even within the deadline.

### Last-Delivery-Date:

The Last Delivery Date can also be found in the table. This means that orders received by the Last Call Date will be delivered by this date.

### Alternative option:

As the case may be the discontinued WAGO items may be replaced by alternative WAGO products which have to be aligned with your profile of requirements regarding functionality, geometry and characteristics. Our salesmen will be happy to support you in the selection of alternative products.

We are informing you about the planned product discontinuation process at this early stage to provide you with the possibility to apply WAGO alternatives – and therefore we explicitly offer you the support of our field service.

Would you please consider the deadlines and please do not hesitate to contact us in case of any questions.

With best regards,

**WAGO GmbH & Co. KG**
