Description for Product Change Notification

Due to the discontinuation of the D-SUB connectors, D-SUBs from another supplier will be used in the future. All technical and functional properties remain unchanged. Visually, the new D-SUB can be identified by a plastic body on the back. To ensure availability, we reserve the right to temporarily produce individual SUBCON items with an alternative D-SUB without mounting bracket as a transitional measure. The items listed below will be gradually converted to the new D-SUB connectors from June 1, 2024. Since the new D- SUBs are being introduced as second-source components, the item revisions remain unchanged.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes
