FEIG

Dear valued customer:

Product replacement ID ISC.LRM2500-B, with compatible reader ID LRM5400-A

As an innovative company, FEIG ELECTRONIC GmbH is constantly striving to improve its products in order to offer the best possible performance, quality, design, and availability of the products.

The ID ISC.LRM2500 reader family has been one of the most powerful devices on the market, worldwide, for years. Due to the progress of technology and needs of our customers, we are pleased to inform you of the availability of our newly designed HF reader module ID LRM5400-A. The new reader module will replace the reader module ID ISC.LRM2500-B.

The new reader offers best RFID performance, now with four RF outputs, improved CPU power and an updated Ethernet / TCP/IP interface.

In order to make the migration to the new device more convenient, special attention was given to the design of the new reader to ensure the best possible compatibility. The new ID LRM5400 reader module offers comparable interfaces, inputs/outputs and mechanically compatible dimensions and fastening points.

Further details can be found in the attached data sheet.

The new readers are orderable from us now
