

## **Broadcom Product Advisory**

### **Addition of Desiccant to Adapter Packaging**

**Issue Date: May 13, 2024**

#### **Description of Change:**

Broadcom is adding a desiccant to bulk and kit adapter packaging for DCSG storage and NIC adapters. Desiccant helps maintain dryness in the packaging and will reduce impacts associated to excessive humidity exposure.

#### **Parts Affected:**

All DCSG Storage and NIC standard and custom adapter packaging will have this desiccant added.

#### **Effect of Change on Fit, Form, Function**

There is no change to fit, form, or function. The desiccant will be added inside bulk level ESD bags and kit level plastic clamshells.

#### **Recommended Action by the Customer:**

Acknowledge this Product Advisory and ensure your respective receiving inspection departments are prepared to receive products with the additional desiccant packs.

#### **Effective Date of Change:**

Product shipments using this change will begin on or after June 15, 2024. Timing of shipments will vary by part number depending on customer demand and inventory levels.
