End of Life Notification: SB70, SB70LC

May 22, 2024

The SB70 and SB70LC products, introduced in May 2008, are now End of Life (EOL). The NetBurner standard products affected are:

- SB70LC-100IR
- SB70LC-200IR
- SB70-100IR

Orders and last time buys will be accepted through June 1, 2025 while supplies last. It is highly recommended that purchases be planned with as much lead time as possible.

The good news is that there is an upgrade path for these devices to a new product, the SBE70LC. It offers significantly more performance, resources, features, and the latest security including TLS 1.3.

The [SBE70LC](#) has the same form factor as the SB70LC, so if you are using the NetBurner Serial-to-Ethernet software it is a plug-in replacement with no modifications.

If you have written your own application to run on the device, our support team is here to help you with any necessary transition.

Sincerely,

The NetBurner Team
