Topic: Phase Out Announcement ASDA-A2 Servo System

Dear Valued Partners.

This announcement is to inform you of the phase out of the ASDA-A2 Servo System product in the North America Market. This decision comes as part of our ongoing efforts to enhance our product offerings and streamline our portfolio to better serve your needs.

The ASDA-A2 Servo System has been a reliable and integral part of many industrial automation portfolio over the years. We appreciate the trust and confidence you have placed in this product.

However, we are excited to introduce its successor, the ASDA-B3A Servo System. The ASDA-B3A system builds upon the strengths of its predecessor while incorporating advanced features and improvements to meet the evolving demands of the industry.

Key enhancements of the ASDA-B3A Servo System include:

1. Improved performance and precision for enhanced control.
2. Expanded connectivity options for seamless integration into diverse applications.
3. Enhanced diagnostics and monitoring capabilities with ASDASoft version 6 for easier maintenance and troubleshooting.
4. Comprehensive support and service to ensure smooth transition and continued reliability.
5. STO offering on all models.

Attached is a list of the part numbers that will be removed from our core product offering. We understand that transitioning to a new system may require careful planning and adjustments. Our team is committed to providing you with the necessary assistance and support throughout this process to minimize any disruptions to your operations.

As we move forward, we remain dedicated to delivering innovative solutions that drive productivity, efficiency, and success for our valued customers.
