The discontinued LEDs are available while stocks last, but no longer than the **end of January 2015**. The replacement LEDs will be introduced no later than February 2015.

Pre-information – New Brightek LEDs

The discontinued LEDs will be replaced by modern **Brightek LEDs**. The technical specifications are not the same. In particular, **the forward voltage** (VF type), **light intensity** (mcd) and **wave length** (nm) are different to the discontinued Stanley LEDs.

Part numbers and prices of replacement LEDs will be communicated in November 2014. Detailed information about the replacement of Series 18 LEDs will be communicated in a separate product information.

In case of questions, do not hesitate to contact us.

Kind regards

Till Wiczorek
