Description of Change	End of life for Rabbit SBC

Reason for Change	Digi has been and remains committed to the longevity of our embedded product offerings. Unfortunately, Digi has received notification of several end of life (EOL) and last time buy (LTB) components from key suppliers affecting multiple product families.
	The product families affected are all Rabbit products which were released as Digi products up to 20 years ago.
	Digi has worked extensively with our supply partners to enable Digi's end customers with an LTB to provide continued lifetime availability of their products.
	No direct or functional replacement products are available so participation in the LTB is highly recommended.
