PRODUCT CHANGE NOTICE

Issue Date: Nov 1st, 2024

Dear Valued Customer,

This PCN C0528 notice is to inform you of a process change on finished good(s) you have purchased from Littelfuse.

Description of the Change:

Littelfuse will replace the stamping process to a new technology for marking for some of our solenoids and switches. Please refer to attachment for affected parts list.

Reason for The Change:

Littelfuse will implement a new laser mark process into the assembly line, to enhance a better mark quality and reducing the potential of no legibility in the FG part number and date code of the final product.

Effective Date of the Change:

This change will take effect in Dec 2024.

What You Need to Do:

Please, notify your customers who have purchased these P/Ns in the past. There will be no change to form, fit, or function of the finished goods P/Ns themselves.

If you have any questions, please feel free to contact your Littelfuse Customer Service or Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Renata Cebada

Associate Product Manager
