

USB-C to VGA Adapter

With Anodized Aluminum Sleeves

- Resolution up to 1920 x 1200 at 60Hz
- Connect Your Computer's USB-C port to VGA Display or Projector
- Perfect for Presentations
- Plug n' Play
- Add Second Display for Multi-Tasking or Video Game Play
- One (1) year warranty

Extend the Use of Older Display Monitors

If you already have a display monitor that suits your needs, extend its use by connecting your new MacBook, MacBook Pro or any other USB-C equipped computer with our USB-C to VGA adapter.

Be Ready to Present

Use the EZQuest USB-C to VGA Adapter to take with you for presentations. You can rest assured that you are ready to present no matter your host's projector type.

Increase Productivity or Gaming Environment

Add a second monitor or mirror your display to multi-task. No need to flip back and forth between programs on one display; have different programs open on each display.

Enjoy Graphics on a Larger Screen

Connect your new USB-C computer to larger VGA-equipped display to watch movies, play games, or display photos.

Anodized Aluminum Sleeve Design

EZQuest's sleek cable design is precision-engineered with anodized aluminum sleeves on each end of the cable to minimize electromagnetic interference (EMI) from other nearby electronics for pristine picture quality.
