Stream Movies or Personal Videos to DisplayPort-enabled 4K HDTVs, Monitors and Projectors

The EZQuest USB-C to DisplayPort 4K 60Hz (60 frames per second) adapter is our latest generation 4K solution that enables the output of ultra-high definition video and digital audio to your HDTV, monitor or projector.

Extend/Mirror Display

The EZQuest USB-C to DisplayPort 4K adapter enables the extension of the computer's display screen to any DisplayPort-equipped monitor or projector. The adapter allows you to mirror your MacBook or MacBook Pro display to your DisplayPort-enabled TV or monitor (via a connection to your DisplayPort cable which is sold separately).

Plug n' Play

Be prepared for business presentations. The EZQuest USB-C to DisplayPort adapter enables you to connect to any display device (TV, monitor, or projector) that is equipped with a DisplayPort cable.

Anodized Aluminum Sleeve Design

EZQuest's sleek cable design is precision-engineered with anodized aluminum sleeves on each end of the adapter to minimize electromagnetic interference (EMI) from other nearby electronics for pristine picture quality.
